PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 6+ years of experience specializing in React.js, TypeScript, and modern frontend architecture. Proven expertise in building scalable, high-performance single-page applications serving 100K+ users with 99.9% uptime. Demonstrated success in increasing website traffic by 70%, achieving 85% automated test coverage, and delivering 15+ high-impact features annually. Strong technical leader skilled in mentoring teams, establishing frontend standards, driving CI/CD automation, and collaborating with cross-functional stakeholders to deliver measurable business outcomes.

TECHNICAL SKILLS

- **Core Frontend Technologies:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
 - **UI & Styling:** Tailwind CSS, Ant Design, Responsive Design, Cross-Browser Compatibility
 - **State Management & Data:** Redux, Redux-Saga, React Query, TanStack Query, REST APIs
 - **Testing & Quality:** Jest, React Testing Library.
 - **Build & Performance:** Vite, Webpack, Bundle Size Optimization, Code Splitting, Lazy Loading, Core Web Vitals, Lighthouse
 - **Tools & Platforms:** Git, GitHub Actions, CI/CD, Postman, Sentry, Mixpanel, i18next, React Router
 - **Practices & Methodologies:** Agile/Scrum, Design Systems, Component Architecture, Accessibility (WCAG basics), SEO Optimization, Technical Documentation, Mentoring
-

KEY ACHIEVEMENTS

- Designed and published private npm packages for chat, video rooms, and shared UI components, enabling reuse across multiple projects and reducing overall feature development time by 60–80%.
 - Created automated CI/CD workflows to monitor bundle size, detect unused assets, and flag dead code at pull request level, ensuring timely cleanup and long-term repository health.
-

PROFESSIONAL EXPERIENCE

Intellect Company Pte. Ltd., Singapore(Remote) | Senior Software Engineer I | April 2023 – Present

- Architected and delivered 15+ enterprise-grade frontend features annually for revenue-generating products used by 100K+ global users.
- Led development of shared frontend libraries (Chat SDK, Component Library, Video SDK) across 5+ repositories, reducing integration time by 80%.

- Acted as technical lead on 2–3 concurrent projects, ensuring on-time delivery while maintaining 80%+ code quality and test coverage standards.
- Designed and implemented CI/CD workflows to automatically detect unused assets and dead code, improving repository hygiene and maintainability.
- Built automated build metrics to calculate bundle size and build time, publishing results as pull request comments to prevent performance regressions.
- Improved web performance by optimizing rendering, code splitting, and lazy loading, increasing Lighthouse performance scores from 50 to 90.
- Established scalable design system and component patterns adopted across teams, increasing feature delivery velocity by 25%.
- Collaborated closely with product managers, designers, and backend engineers to incorporate user feedback and continuously enhance platform usability.

HCL Tech, India | Senior Software Engineer | November 2021 – April 2023

- Migrated 3 legacy HTML5 applications to modern React.js single-page applications, improving maintainability and scalability by 70%.
- Designed and implemented centralized Redux-based state management architecture supporting 50+ interconnected components.
- Integrated REST APIs to ensure reliable data flow and consistent application behavior across modules.
- Mentored a team of 5 junior developers on React best practices, advanced CSS, and automated testing, reducing code review cycles by 40%.
- Partnered with cross-functional teams to deliver responsive, accessible user interfaces, reducing bounce rate by 25%.

Confidential(NDA), Delhi, India | Frontend Developer | January 2019 – December 2021

- Engineered 10+ responsive, cross-browser web applications with consistent performance across Chrome, Firefox, Safari, and Edge.
- Developed and maintained production-ready SPAs serving 50K+ daily active users with 99.9% uptime.
- Built a reusable component library with 40+ modular components, reducing feature development time from 2 weeks to 5 days.
- Implemented mobile-first and accessibility-aware UI designs, contributing to 95%+ user satisfaction ratings.

EDUCATION

Bachelor of Technology in Electronics & Communication Engineering

Uttarakhand Technical University | July 2013 – August 2016

LANGUAGES

English, Hindi
